

2026 NESHS Fall Conference Speaker Bio

Colin FitzGerald

AI Solutions & product Lead
MaineHealth

Colin FitzGerald is the AI Solutions & Product Lead at MaineHealth, where he works within Strategy and Business Transformation to translate enterprise priorities into scalable solutions. He is building the health system's AI product function from the ground up, spanning problem definition, strategy, vendor evaluation, governance, and deployment across clinical, operational, and financial domains.

Before MaineHealth, Colin spent eight years in management consulting at Huron and held roles at xCures and Ambience Healthcare focused on enterprise healthcare technology and AI deployment.
